SOVIET PLANT PHYSIOLOGY

Volume 14, Numbers 1-6, 1967

(A translation of Fiziologiya Rastenii)

CONTENTS

Volume 14, Number 1 January-February, 1967

	Engl.	Russ.
Relationship of Structure and Function in the Photosynthetic Apparatus of the Potato during Ontogenesis—T. E. Kislyakova, B. M. Golubkova, and I. I. Bogacheva	1	5
Incorporation of S^{35} into Various Chloroplast Proteins—E. B. Kirichenko	13	15
Sugar Accumulation as a Function of Growth Processes in Sugar Beet Roots—A. L. Kursanov and O. A. Pavlinova	18	21
Uptake of Plastic Substances by the Developing Wheat Seed—F. A. Polimbetova and L. K. Mamonov	25	29
Effect of the Retardant Bromocholine Bromide (BCB) on Growth Processes and Lodging Resistance of Wheat—L. D. Prusakova, K. S. Bokarev, L. M. Kapelyushnikova, and S. I. Chizhova	33	38
Effect of Light of Different Spectral Compositions on the Growth of Isolated Carrot Tissue Cultures—V. S. Polevaya	41	48
Biochemical Nature of Vegetative Aproach during Interspecies Hybridization of Beet Plants—A. F. Marinchik	49	57
Effect of Gibberellin on the Growth and Development of Ginseng—P. P. Vorob'eva and Z. I. Gutnikova	57	65
Relationship between Grain Yield and Leaf Area and Dry Matter Accumulation in the Ontogeny of Soft Spring Wheat—Z. F. Lyapshina	61	70
"Trigger" Mechanism of Germinating Seeds—L. A. Nezgovorova and N. N. Borisova	65	75
Effect of Vitamin B_{12} on the Growth, Development, and Yield of Certain Crops—P. N. Filimonov	72	84
Formation of Growth Inhibitors in Wilting Apricot Leaves—T. N. Pustovoitova	77	90
Aftereffect of Atmospheres of Various Compositions on the Growth of Winter Wheat Plants—Z. G. Rakitina	84	98
Temperature System for the Second Phase of Hardening of the Grapevine and Change in the Carbohydrate Composition at Negative Temperatures—K. S. Pogosyan	92	109
Soil Temperature and Assimilation of Atmospheric Nitrogen by Legumes—A. I. Korovin and V. A. Vorob'ev	98	117
On the Function of the Apparent Free Space in Plant Roots. A Study of the Absorbing Power of Epidermal and Cortical Cells in Barley Roots—D. B. Vakhmistrov	103	123
Absorption of Nitrate and Ammonium Forms of Nitrogen by Corn Plants with Different pH of the Nutrient Solution—S. S. Andreenko and N. D. Alekhina	108	130
Phenolic Compounds in the Fruits of Cinnamon Rose—M. T. Golovkina and N. V. Novotel'nov	113	136
Chlorophyll Content and Water Conditions in Leaves—V. D. Zelepukhin and I. D. Zelepukhin	118	142

	Engl.	Russ.
BRIEF COMMUNICATIONS		
Daily Periodicity of Sap-Exudation Rate in Cucumbers Raised in Soilless Culture—A. M. Mustafin	123	148
Effect of Different Types of Presowing Treatment on the Germination and Enzyme Activity of Sorghum Seeds at Low Temperatures—A. S. Suleimanov	126	151
Carbohydrate Metabolism in Apple Seeds during Postharvest Maturation—Yu. G. Popov	128	153
Regularities in Leaf-Blade Growth—F. V. Kryukovskii	132	156
PRACTICAL APPLICATIONS		
Increasing the Effectiveness of Herbicides Used on Resistant Varieties of Fiber Flax—S. M. Mashtakov, A. P. Volynets, and A. F. Guz	134	158
METHODS		
Method of Studying CO^2 Fixation by Isolated Chloroplasts and the Effect of Temperature on Its Rate—I. A. Chernov, N. S. Siyanova, and D. Z. Shakirova	145	172
Purification of Pea Mitochondria by Zone Centrifugation—M. I. Resler and A. V. Kositsyn	149	176
Radiometric Measurement of the Light Curves of Photosynthesis with the Use of a Wedge Chamber—C. N. Chmora and V. M. Oya	152	179
REVIEWS		
N. P. Voskresenskaya. Photosynthesis and the Spectral Composition of Light—Reviewed by I. A. Tarchevskii	160	187
OBITUARY		
Grigorii Romanovich Matukhin (1912-1966)—B. N. Tsyurupa, V. I. Sevast'yanov, and N. V. Zhukovskaya	163	190

Volume 14, Number 2 March-April, 1967

Photosynthesis Products and Biosynthesis of Phenol Compounds in Tea Plants—M. N. Zaprometov and V. Ya. Bukhlaeva	167	197
Effect of Chloramphenicol on the Photosynthetic Apparatus of Plants—O. P. Osipova M. K. Nikolaeva, and Kh. Ya. Khein	178	210
Action Spectrum of Photosynthesis, the Emerson and Induction Phenomena in Higher Plants—F. F. Litvin and Ho I-t'an	186	219
Pigment Composition, Structure, and Photosynthetic Capacity of the Chloroplasts of Mutant Corn Leaves—A. Faludi-Daniel and D. Dubravitski	195	232
Characteristics of the Formation and Functioning of the Photosynthetic Apparatus of Corn and Soya in Artificial (Two-Member) Cenoses—K. N. Zhailibaev	199	237
Excretion and Reduction of Nitrates by Maize Roots under Conditions of Root Anaerobiosis—G. M. Grineva and F. G. Karimova	207	247
Rhythmics in the Secretion of Organic Substances by Cereal Roots—A. P. Dubrov and E. V. Bulygina	216	257
Effect of Heteroauxin on the Formation of Organic Acids in Sunflower Leaves under Different Illumination Conditions—A. A. Zemlyanukhin and V. I. Zvyagintsev	222	264
Changes in the Mechanism of Cell Division Induced by Physiologically Active Substances from a Mistletoe (Viscum album L.) Extract—G. N. Acatrinei	228	271
Sorbic Acid as an Inhibitor of the Fusarium vasinfectum Fungus, which Induces Wilt in the Cotton Plant—N. P. Oshanina and K. E. Ovcharov	234	276
Penetration of Lindane into Plants of Various Photoperiodic Groups and Its Biological Activity Depending upon the Light Conditions—G. A. Odumanova-Dunaeva	239	282

	Engl.	Russ.
Mechanism of the Action of Volatile Substances from Putrescent Plant Matter—N. I. Purtenskaya, L. O. Élinor and A. M. Grodzinskii	248	292
Effect of Blue, Red, and Green Light on the Content of Protein, Nucleic Acids, and Chlorophyll in Young Barley Plants—N. P. Voskresenskaya and E. P. Necheva	254	299
Uptake of Labeled 6-Benzylaminopurine by Barley Leaf Segments and Distribution of the Compound among Various Cellular Structures—O. N. Kulaeva, É. A. Popova, I. Benesh, and M. E. Dolgaya	262	309
Effect and Aftereffect of High Isoosmotic Concentrations of NaCl and Dextran on Horse-Bean Plants—L. P. Lapina	271	319
Effect of the Gaseous Composition of the Atmosphere on the Frost-Resistance of Winter Wheat Plants—Z. G. Rakitina	278	328
Variation in Quality of Soybean Seed—I. F. Belikov and M. K. Sazonenko	285	337
Statistical Essence of Biological Objects. I. Main Methods of Biometry—Yu. A. Urmantsev	289	342
BRIEF COMMUNICATIONS		
Physiological Activity of Meta- and Para-Nitrophenylchlormethyl Carbinols and Their Nitrogen Esters—I. G. Khaskin and G. N. Tsybul'skaya	314	359
Dependence of Grain Yield on Water Status during Development of Soft Spring Wheat—Z. F. Lyapshina	306	360
Dynamics of the Electrical Resistance and Cell Permeability of Winter Wheat in Connection with Breaking of Dormancy—G. M. Artamonova	309	364
Content of Natural Gibberellins in Various Organs of Plants in Connection with Their Age—V. N. Lozhnikova	312	366
Effect of Saccharose on the Resistance of Isolated Chloroplasts—Yu. G. Molotkovskii and I. M. Zhestkova	314	367
PRACTICAL APPLICATIONS		
Pulsed Sprinkler with Self-Acting Differential Valve—G. L. Lebedev and V. G. Bryukvin	318	372
METHODS		
Use of Flash Spectroscopy for Investigating the Kinetics of Primary Stages of Photobiological Processes—L. B. Rubin and A. P. Andreitseva	321	375
Determination of the Orientation of Plant Leaves in Space—L. M. Shiman	326	381
CHRONICLES		
Symposium on the Application of Isotopes in Plant Nutrition Research—N. V. Obrucheva	329	384
First All-Union Symposium on Phenolic Compounds—M. N. Zaprometov	332	386

Volume 14, Number 3 May-June, 1967

Effect of 2-Chloroethyltrimethylammonium Chloride (CCC) on some Characteristics of the Water Conditions in Plants—N. N. Kharanyan	465	548
Diurnal Dynamics of the Phloridzin and Flavonol Conten in Apple Shoots—T. Vard'ya and L. Sarapuu	469	551
METHODS		
Recording Press-Centrifuge for Fractional Extraction of Water and Water-Soluble Substances from Plant and Animal Tissues—G. V. Lebedev	473	555
BOOK REVIEWS		
P. A. Genkel' and S. V. Kushnirenko. Cold Resistance of Plants and Thermal Methods of its Increase—Reviewed by D. F. Protsenko, P. S. Mishustina, and E. K. Beletskaya	477	559

	Engl.	Russ.
Localization of the Free Space in Barley Roots—D. B. Vakhmistrov	337	397
Investigation of the Bleeding Sap of Grape Vines—É. S. Avundzhyan, S. A. Marutyan, A. D. Dogramadzhyan, and Zh. A. Petrosyan	344	405
Some Proofs of the Splitting of Sucrose during its Movement from Mesophyll into the Fine Bundles of Sugar-Beet Leaves—M. I. Brovchenko	352	415
Sucrose Transport across the Cell Membranes of Vascular Tissue—M. V. Turkina and S. V. Sokolova	360	425
Uptake of Sugars by the Root of Sugar Beet—V. É. Pontovich	368	434
Localization of Sucrose in Tissue of the Storage Root of the Sugar Beet—V. P. Kholodova	376	444
Influence of Prolonged Shading upon the Pigments and Plastid Apparatus of some Sun and Shade Plants—T. N. Godnev and É. F. Shabel'skaya	382	451
Comparative Study of the Physiological Activity of Five Gibberellins—V. N. Agnistikova and G. S. Muromtsev	387	456
Generation of Potentials in the Pistils of Incarvillea and Lily in Conjunction with Movement of the Stigma and Fertilization—A. M. Sinyukhin and E. A. Britikov	393	463
Formation and Physiological Role of Callose Pollen Tube Plugs—N. V. Tsinger and T. P. Petrovskaya-Baranova	404	477
Change in the Cytophysiological State of the Apical Meristem of Barley Shoots in Connection with the Transition to the Reproductive Phase—É. P. Rostovtseva	411	486
Significance of Respiration in Plant Cell Water Content under Drought Conditions—P. A. Genkel', K. A. Badanova, and I. N. Andreeva	418	494
Effect of Respiratory Inhibitors on the Uptake of Oxygen by Wilting Plants—V. N. Zholkevich and A. Ya. Rogacheva	424	500
Investigation of the Influence of Drought on the Cytoplasmic Protein Structure of Plant Leaves by the Dielcometric Method at Ultrahigh Frequencies—N. V. Sedykh and L. P. Khokhlova	429	507
Resistance of Hardened Woody Plants to Dehydration at Low Temperatures—F. A. Krasavtsev	433	512
Physiological Mechanism of Frost Resistance of Plants—I. I. Tumanov	440	520
BRIEF COMMUNICATIONS		
Effect of Magnetic Field and Rotation of the Earth on Seed Germination and Shoot Growth—P. P. Chuvaev	456	540
Total Rate of Expenditure of C^{14}-Assimilates in Translocation and Respiration in the Leaves of various Beet and Tomato Varieties—V. S. Rodionov	459	544
Diurnal Rhythm of Nitrogen Metabolism in Plants—I. I. Razmaev	462	546
NEWS EVENTS		
Current State and Prospects of Development of Investigations into the Problem of Photosynthesis in the Ukraine—V. A. Kapitanchuk, V. I. Natsik, and A. G. Semenov	480	562
Zenon Iosifovich Zhurbitskii (On His Seventieth Birthday)	483	565
ERRATA	487	564

Volume 14, Number 4 July-August, 1967

Ratio of the Specific Activities of Chlorophylls A and B in Greening Etiolated Seedlings—A. A. Shlyk, A. P. Losev, and S. N. Shevchuk	489	573
Effect of Light of Various Spectral Compositions on Some Aspects of Auxin Metabolism in Cultures of Isolated Carrot Tissue—V. S. Polevaya	496	582

	Engl.	Russ.
Adaptation of Green Plants to the Spectral Composition of Solar Radiation —I. A. Shul'gin	504	592
Photosynthesis in Leaves as a Function of Temperature—S. N. Chmora and V. M. Oya.	513	603
Physiological Characteristics of Chlorella sp. K at High Extremal Temperatures. 1. Decoupling Effect of Extremal Temperatures on the Cellular Functions of Chlorella—V. E. Semenenko, M. G. Vladimirova, and O. B. Orleanskaya	520	612
Growth and Mineral Nutrition of Chlorella on a Balanced Medium—E. D. Kuznetsov.	532	626
Effect of Concentration of Nutrient Medium on the Physiology of Anacystis nidulans in Intensive-Culture Conditions—M. A. Ignat'evskaya and N. I. Raikov.	538	634
"Trigger" Mechanism of Germinating Seeds. III. Effect of Diamines on Germinating Seeds—L. A. Nezgovorova and N. N. Borisova.	546	644
Influence of Potassium Ions on the Resting Potential of the Root Cells of Cucurbita pepo —A. M. Sinyukhin and E. I. Vyskrebentseva.	553	652
Effect of Compressed Gases on Oxygen Transport in Roots. (Diffusion Mechanism of the Radiation Protection Effect of Compressed Gases)—V. P. Paribok and V. S. Kal'nii	558	659
Effect of Zinc Fertilizers on the Biochemical Characteristics of Corn at Different Zinc-Supply Levels—V. S. Dibrova	566	670
Free Amino Acids in the Root System of the Pea—G. I. Lopukhina	570	675
Role of Rhizospheral Microorganisms in the Relationships of Plants through their Root Secretions—V. P. Ivanov, G. A. Yakobson, and V. I. Smirnova.	577	683
Investigation of Amino Acid Metabolism with C^{14} in Young Corn Plants Raised under Different Nutrition Conditions—M. Sarich, T. Chupina, I. Gerich, and I. Vereshbarani	585	693
Biochemical Characteristics of the Generative Systems of High and Low Heterosis Lines of Maize in Relation to Heterosis—E. L. Golynskaya, T. M. Grigorenko, T. V. Zhigalenko, and N. K. Oman	592	701
Formation of Sporogenous Cells in the Culture of Isolated Male Flower Buds of Woody Plants. (Effect of Heteroauxine and Kinetin)—I. I. Leshkovtseva	599	710
Charge in Nucleic Acid Metabolism in Plants Under Saline Conditions—V. V. Kabanov and L. N. Aziyashvili	606	719
Accumulation of Oligosaccharides and their Significance in the Low-Temperature Hardening of Cereal Grains—V. I. Babenko and A. M. Gevorkyan	613	727
Accumulation of Free Proline in Barley Plants in the Presence of Insufficient Soil Water—N. N. Savitskaya	622	737
Influence of Different Types of Salinization on Mitosis in the Roots of Sunflower and Barley Shoots—L. F. Gaidamakina.	625	740
Stably Bound Manganese in Chloroplasts—N. I. Zakharova, Zh. I. Nemtseva, and V. M. Kutyurin.	628	742
Transpiration and Diffusion Pressure Deficit of Broom Rape and the Plant Host —U. Kh. Rakhimov	631	745
Influence of Ghibberellin and Riboflavin on Certain Aspects of Energy Metabolism in Plants—V. I. Artamonov	633	747
METHODS		
New Apparatus for Determination of Plant Respiration—I. A. Kuperman, E. V. Khitrovo, and G. A. Bochkov	636	750
BOOK REVIEWS		
S. T. Radchenko. Temperature Gradients in the Enviroment and the Plant —Reviewed by A. F. Kleshnin	641	755
EVENTS		
Report of a Special Meeting of the Academy of Sciences of the Ukrainian SSR on "The Physiology and Biochemistry of Plant Growth Regulation"—F. L. Kalinin and V. N. Kapitanchuk	643	757

Engl./Russ.

Volume 14, Number 5 September-October, 1967

Fifty Years of Soviet Plant Physiology (1917-1967) 645 765
Influence of Retardants on the Growth and Flowering of Plants—M. Kh. Chailakhyan and V. G. Kochankov 652 773
Analysis of the Effect of Chloramphenicol on Corn-Root Growth—V. B. Ivanov, N. V. Obrucheva, and T. K. Litinskaya 661 785
Comparative Effect of Natural Growth Inhibitors, Narcotics, and Antibiotics on Plant Growth—V. I. Kefeli and R. Kh. Turetskaya 670 796
Transformation of C^{14}-Catechins after Introduction into Plants—M. N. Zaprometov and V. Ya. Bukhlaeva 676 804
Transformation of Sugars Absorbed by the Leaf Tissues of Sugar Beets—A. L. Kursanov, M. I. Brovchenko, and E. P. Butenko 684 813
Influence of Potassium Ions on Generation and Conduction of Action Potentials in the Vascular Bundles of Pumpkin (Cucurbita pepo) Stems—E. I. Vyskrebentseva and A. M. Sinyukhin 692 823
Direct Action of ATP on the Absorptive Apparatus of Barley Roots—D. B. Vakhmistrov and M. P. Listova 700 833
Iron-Containing Coenzyme a in the Photosynthetic Carbon Dioxide Acceptor—V. E. Zarin and E. A. Boichenko 708 843
Activity of the Photosynthetic Apparatus and Nitrogen Metabolism in Plants—A. A. Nichiporovich, O. P. Osipova, M. K. Nikolaeva, E. G. Romanko, Kh. Ya. Khein, G. A. Slobodskaya, and Yu. V. Krylov 713 849
Changes in the Rate of Photosynthesis by the Leaf Due to Factors Affecting the Root System—V. O. Kazaryan and V. A. Davtyan 721 860
Photoenergetics of a Synchronous Chlorella Culture—L. N. Bell, E. A. Lin'kova, G. A. Slobodskaya, K. S. Spectorov, E. P. Fedenko, and G. S. Bukina 726 866
Formation of the Membrane System of Chloroplasts Illuminated by Various Parts of the Spectrum—A. A. Shakhov, N. S. Balaur, and I. A. Kondurushkin 731 872
Structural Changes in Mitochondria of Tobacco Leaves with Virus Infection—B. A. Rubin, Yu. V. Balnokin, and M. E. Ladygina 739 880
Change in Structure and Composition of Aleurone Grains in Ripening Castor Beans—A. A. Prokof'ev, I. N. Sveshnikova, and A. M. Sobolev 746 889
Effect of Drought on Protein Synthesis and the State of Ribosomes in Plants—P. A. Genkel', N. A. Satarova, and E. K. Tvorus 754 898
Causes of Poor Cold-Resistance in Roots of Fruit Trees—I. I. Tumanov and N. N. Khvalin 763 908
Metabolism of Succinic Semialdehyde and γ-Aminobutyric Acid in Plants—V. L. Kretovich, T. I. Karyakina, and N. V. Lyubimova 771 919

BRIEF COMMUNICATIONS

Effect of Chloramphenicol on Protein Synthesis in Leaf Discs—O. N. Kulaeva and N. L. Klyachko 778 926
Translocation and Transformation of the Defoliant BEXT in Plants—V. A. Kraft and K. S. Bokarev 781 929
Absorption of Radioactive Phosphorus in Trunks and Branches of Fruit Trees during Winter Dormancy—R. V. Gitlits and E. A. Shishkin 785 933

PRACTICAL APPLICATIONS

Ethylene as a Highly Effective Defoliant—Yu. V. Rakitin 789 936

METHODS

Isolation of Monospecific γ-Globulin from Exhausted Immune Sera for Investigation of Proteins from Plant Cells—A. D. Volodarskii and N. G. Tikhonovskaya 800 952

Engl./Russ.

BOOK REVIEW
T. A. Kazeli – Vitamins in the Plants of Georgian SSR – Reviewed by K. E. Ovcharov 803 955

EVENTS
Fifth All-Union Conference on the Use of Trace Elements in Agriculture and Medicine – I. A. Burkin and G. Ya. Zhiznevskaya. 805 957

Volume 14, Number 6 November-December, 1967

Specificity of Antigens in the Cycle of Cellular Transformations in a Tobacco Tissue Culture – R. G. Butenko and A. D. Volodarskii 809 965
Peculiarities of Age Variatious of RNA Metabolism in Detached and Intact Plant Leaves – O. N. Kulaeva, A. B. Fedina, S. Yu. Selivankina, and A. L. Kursanov 816 972
Model of the Photoperiodic Mechanism in Plants – B. S. Moshkov, S. L. Pumpyanskaya, and L. Ya. Fukshanskii 825 983
Mechanism of Action of Maleic Acid Hydrazide on Growth and Sugar Accumulation in Sugar Beets – O. A. Pavlinova, M. F. Prasolova, and E. A. Ivanova 833 992
Rate of Protein Synthesis in Growth Zones of Corn Seedling Roots – É. E. Khavkin, É. V. Tokareva, and N. V. Obrucheva 837 997
Effect of Light and Gibberellic Acid on the Growth of Pea Internodes – M. Nešković ... 844 1006
Localization of 2,4-D in the Cells of Corn and Sunflower Leaves – V. A. Zemskaya and Yu. V. Rakitin 848 1011
Influence of Carbine on the Metabolism of RNA, Protein, and Nucleoproteins in Wild Oat Seedlings – V. F. Ladonin and K. M. Svittser 853 1017
Influence of Inoculation upon the Amino Acid Composition of the Bleeding Sap of Soya Plants – N. V. Sokorenko and I. G. Vyval'ko 861 1027
Change in Oxidative Phosphorylation in Various Varieties of Cultivated Plants under the Influence of Herbicides – S. M. Mashtakov and V. P. Deeva 867 1033
Peculiarities of the Respiration of Slices of Yellow Water Lily Rootstocks – B. A. Rubin and A. M. Roshchin 874 1042
Protective Action of Glycerol and of Other Substances Readily Penetrating the Protoplasts during Freezing of Plant Cells – G. A. Samygin and N. M. Matveeva 879 1048
Frost Resistance of Grape Varieties in Relation to the Conditions of Hardening – K. S. Pogosyan and M. M. Sarkisova 886 1057
Some Findings on Water Relations and Heat Resistance of Manchu, Sour, Ground, and Sakhalin Cherry – E. D. Taleisnik and S. M. Usol'tseva 892 1065
Determination of the Viability of Leaf Parenchyma from Chloroplast Phototaxis – A. G. Lomagin, T. A. Antropova, and L. V. Semenikhina 897 1071
Effect of Different Forms of Nitrogenous Fertilizers and Trace Elements on the Metabolic Activity of Cotton Roots – Kh. Kh. Enileev and V. K. Andryushchenko 904 1080
Absorption of Water and Vitamins by Seeds under the Action of Ultrasonic Waves – L. S. Makogon and K. E. Ovcharov 910 1087
Pathways of Regulation of the Content of Excess Absorbed Ions in Plant Tissues (with Sodium Ions as an Example) – V. A. Solov'ev 915 1093

BRIEF COMMUNICATIONS
Dynamics of Low-Molecular-Weight Nitrogen Compounds in Wheat Ontogenesis – A. N. Ponomareva 924 1104

METHODS
Methods for the Isolation of Chloroplasts in a Non-aqueous Medium – L. A. Filippova 927 1107

BOOK REVIEWS
K. E. Ovcharov and E. G. Kizilova. Varied Seed Quality and Plant Productivity – A. N. Pavlov 934 1113

Engl./Russ.

EVENTS
Conference on the Physiology and Biochemistry of Translocation and Sugar Accumulation in Sugar Beet—M. V. Turkina and V. P. Kholodova 936 1115

OBITUARY
Valentina Nikolaevna Naugol'nykh (1900-1966)—P. A. Genkel' and O. M. Trubetskova . . . 940 1118
